

Environmental

Kabin Hire Ltd is committed to conducting all operations in an environmentally responsible manner. We consider compliance with statutory requirements to be a minimum level of required performance. We believe we can improve on the statutory requirement by following the points highlighted below:

In our own rental and transport fleet we seek to:

- ✓ Maintain our equipment to the highest level to help maximise its effectiveness and minimise fuel consumptions
- ✓ Progressively improve fuel efficiency by updating and renewing our rental fleet on a regular basis
- ✓ Implement regular service and maintenance intervals to ensure keep environmental incidents are kept to a minimum
- ✓ Maximise opportunities to recycle disposal materials and equipment

In our Transport operations we seek to:

- ✓ Operate equipment in the safest, practical and most efficient manner
- ✓ Strive to minimise significant adverse environmental incidents or pollution
- ✓ Consult those affected by our work
- ✓ Conduct our activities in a considerate manner

In Maintenance and other operations on our own premises and on site we seek to:

- ✓ Minimise consumption and waste of fuels
- ✓ Reduce noise, dust and other potentially harmful emissions
- ✓ Dispose of used waste fuel, oil and other materials in a responsible way by means of approved contractors
- ✓ Use best practise to minimise spillage of effluent and avoid pollution of any water source

We will achieve this by:

- ✓ Working alongside equipment manufacturers, customers, their clients and local communities
- ✓ Advising our customers of the arrangement of operations to minimise fuel usage and environmental impact
- ✓ Identifying significant risks to the environment from our operations and taking practical steps to manage
- ✓ Ensuring our employees are aware of the potential environmental impacts of their actions through proper training procedures
- ✓ Seeking innovation and continuous improvement in the way we work to achieve better environment outcomes
- ✓

It is the responsibility of every manager and employee in the business to:

- ✓ Perform his or her job so as to comply with all company statutory environmental requirements.
- ✓ Stop and advise the customer's representative if they believe their actions cause an environmental incident
- ✓ Look out for opportunities to improve the company's environmental performance
- ✓ This policy will be reviewed regularly and is to be read, understood and implemented in conjunction with the company's safety policy.
